About the NDC:

NDC is the oldest national non-profit community development organization in the U.S. It was founded in 1969 with one purpose: increasing the flow of capital for investment, jobs and community development to under served urban and rural areas across the country. Since that time, NDC has worked with thousands of communities in every one of the 50 states and Puerto Rico, providing technical assistance, professional training, investment in affordable housing, small business financing and direct developer services.
